About This Content

As the Inquisition engulfed Europe in the first centuries of the previous millenium, whispers spread of a dark hunter. These stories spoke of a man wielding weapons forged in Hellfire, laying waste to demons and witches and leaving only charred skulls in his wake. Even the the fiercest demons would scatter to the winds as soon as they heard the roar of his steel horse, and their numbers dwindled rapidly.

After slaying the last demon in Europe in a dark forest late in the fifteenth century, the man got atop his steel horse and set off to another world in need of his services. One of the villagers saved by the man said he had a face pale as bone and introduced himself Skull Chopper Chucho, and that he would return if our world was ever threatened by hellspawn once more.

This DLC contains a custom skin for Chucho Krok in Awesomenauts. You need to have Chucho Krok available as a playable character in order to access the skin in-game. Owning this skin will also unlock the special portrait for use in-game. This skin contains a fully customized voice set!

cuando uno juega cualquier juego uno esperaria que a lo menos dicho juego sea al menos decente pero este es muy HORRRIBLE

la idea del juego era parecida a de un mario kart combinado con un twitster metal en la que tienes 3 armas con las cuales debilitarias a los oponentes y todas las carreras se hacen en ecenarios de nieve

la idea suena bastante bien hasta que inicie el juego yo esperaba algo mejor pero en la introducion sono un ruido muy fositidoso casi que iva a dejar en mudo

los controles me toco usarlos al adivine no habia instrucciones o cambio de controles y hablando de controles solo habia opcion de cambio de graficos u otras opciones solo ajustar el audio y ya, esa opcion funcionaria SI FUERA UN JUEGO FLASH bueno ni a eso por varios juegos flash son mejores y tienen mas opciones

los controles son lo que puede hacer que un jugador normal haga ragequit de hecho al tratar de girar no lo hizo como deberia, giro casi 90 grados en seco y digamen cual carro normal hace eso, ni si quiera una bicicleta

los graficos se ven bien pero la musica es demaciado olvidable. features some unique songs, challenging arpeggios and chord playing. if you can tolerate the cliché lyrics and the singers hilariously bad yarling, then i recomend this pack for the challenge alone.. This game is hilarious. Really fun.. childhood right here. So, developers like "fire and forget" too? Better than "spray n pray", I suppose. Too bad these guys are so sleepy. To me this game has more potential than all the other steam games combined. But the devs are missing the boat. Why?. The Holiday expansion for Slayaway Camp is totally worth getting if you enjoyed the main game. Now you kill as Santa! Or is it really Santa? Find out :D. I'm not sure which corner of hell this piece of♥♥♥♥♥♥crawled out of, but it needs to go home and stay there.

If we had the capability to manipulate time and space, send this back to the year 1995 where it belongs.

I'm lost for words, I cannot describe how awful this game is.

10/10 would recommend. Night Trap is a classic game, for all the wrong reasons. I suppose as a FMV game its actually well made. ITs packed full of 90s cringe moments for an entire life time. Its incredibly difficult though. So if you are looking for a cake walk its not for you. But once you get the hang of it, and fully embrace the meme, you will laugh for days. Glad to see it back in full force on steam.. It was a beautifully done game. I loved the art design and illustrations. Would have loved to see more to this game to get a better background of what was going on.. I had fun with this game. It is a fairly short visual novel where all the story paths can be explored in about an hour and a half. It has 8 different endings, with 1 of them only accessible after you have done the main 7 endings.

Some of the dialog is a little clumsy since the devs are Russian and it is clear English is not their first language, but I've seen worse from people who's native language is English, so its a pretty minor complaint. There were a handful of parts where there wasn't even translation provided, which kind of sucked. I am not sure if they were just overlooked or what but I don't feel like I missed any important plot elements since it was only a few lines in the whole game.

I also only payed .75 for the game so I don't think I got a bad deal really.

Bonus points as always for the devs providing a flawless Linux port that gave me no issues.

pretty gnarly for a rogue-like...

easy to learn, somewhat difficult. For those considering buying this game, know that it is REALLY SHORT. If you're comfortable with purchasing a game you can finish in around an hour for the listed price, go for it.

This is a good game. Fairly predictable, yet surprising in it's own ways. I enjoyed it.. Well... There is no Main Menu, game takes about 5-10 minutes to complete (including getting all 5 achievements), same song loops over and over again, game does not have a traditional sudoku 9 x 9 Grid, very minimalistic interface. I'll let you be the judge of whether or not you think this is worth paying money for.... Played 40 mins of this and it was just full of crashes in the server with my friend I got screenshots of the crash notes here : <http://steamcommunity.com/sharedfiles/filedetails/?id=753779177>
[I loved the idea of going in to portals and raiding the different areas and fighting bosses with friends but the game doesn't run well at all.](#)

[EDIT: The game is easy to complete in under 2 hours but the developer has fixed the online bug!. AMAZING! It is far from perfect but the developer is amazing and updating nonstop! I love a madden set in the future with gladiators! Awesome!.](#)

[Heresy.... Hersey everywhere. Super EXP UP is great after 1st playthrough.](#)

[Felis Insurance let's Stella keep all her gear when she fails.](#)

[Felis EXPRESS halves the time Stella takes to complete a journey.. Well let's see here Heileen 2. It's uh much longer than the first one. There are way more endings and many more things that affect the outcome of your story. The game starts the same no matter what ending you got in the first game so that was a bit disheartening. Any way I felt this one did fill in some gaps about the character's past like Otto and Lora what happened with Heileen's parents. I would say its okay although I still hate Heileen as a character. Also this one seemed to drag on for bit.. ASRS is satisfying at every turn, with it's amazing chip-punk soundtrack and retro graphics. The gameplay is precisely tuned, evoking megaman and other platformers from that era. If you're looking for an extreme platforming challenge, this game might not be for you, but if a fun, retro styled adventure is what you're after, this game is perfect.](#)
